

The 500 Plan

The Grand Junction Forum, a Chamber committee charged with taking the long view on building on community assets, and leadership of Mesa County Valley School District 51 has forged a partnership to build a world class education system in the Grand Valley. A major variable between education in the United States and elsewhere is the amount of time students spend in the learning environment. With that in mind the Forum has created the 500 Plan. The goal is simple...to add 500 volunteers, making at least an eight week commitment to work with elementary students for approximately one hour on Wednesday afternoons.

Volunteers will need to:

- Submit to a background test and fingerprinting to assure student safety
- Attend a two hour class on working with students to be scheduled several times over the next few weeks
- Commit to at least an eight week session

The 500 Plan Volunteer/Donor Form

I want to help build a world class education system in the Grand Valley.

I will be one of the 500

I will help support the program financially with a \$50 tax deductible donation to the Mesa County Business Education Foundation to help cover the costs of the plan.
